### LICENSE DISC - CORRECT PLACEMENT OR FINE!

An interesting fact was brought to my attention yesterday. A member had parked his vehicle in a local shopping centre which is private property. He was issued a ticket by the local authorities for showing his current license disc but in an incorrect area on the windscreen.

His current disc was at the top of the windscreen on the left hand side - it now appears that your license disc should be displayed on the left hand side at the bottom of the windscreen.

A tip: be aware of placing your license disc in the correct area on your windscreen otherwise you too can receive a R200.00 fine.

Following up on this—It does stipulate on the renewed license under instruction; 1. Cut out disc and affix to the lower left-hand corner on the inside of windscreen or disc holder as per Regulation 36.
